The Ring-Sprague Perjury Case.

The hearing of the case of Mrs. Sarah Sprague, who is charged with perjury by Trustee John Ring, of Adams township, was resumed before Justice Ryan this morning. Mr. Ring submitted his affidavit, denying every one of the scandalous accusations made by the woman against him. Irvin Stratton, attorney for the woman, spoke at length on the affidavit presented by Mr. Ring, and Prosecutor Dawson replied to him. The court room was packed. Mrs. Sprague, who is a comely matron over forty years of age, sat back from Justice Ryan's throne. Mr. Ring sat near the prosecutor. His face beamed with honor and a conviction that the truth must come out and the motive for Mrs. Sprague's attack become known.

The Liquor Dealers Meet.

The Allen county licensed liquor dealers met yesterday afternoon. The object of the conference was to obtain the cooperation of Mayor Muhler and the county commissioners in suppressing a few objectionable saloons about town. It is said the places kept by Frank Fitzgerald and John Dratt are obnoxious to the reputable people engaged in the traffic. The mayor cannot, under the present law, refuse a permit to any person licensed by the county commissioners. All power lies with the county commissioners and an effort will be made to enlist their aid in weeding out "low dives" and hard places.

A Verdict for $1,219.18.

The jury in the case of the Grand Rapids and Indiana Railroad company vs. the Nickel Plate railroad returned a sealed verdict this morning at 2:30 o'clock. Judge Hench opened the envelope at 9 a. m., when the court convened, and it awarded the Grand Rapids railroad $1,219.18, just the cost of repairing the passenger coach smashed by a Nickel Plate engine at the junction west of the city last summer. The Grand Rapids road sued for $10,000. The verdict, however, is satisfactory to both roads and will probably end the damage suits growing out of that smash-up.

General Grant in a Nervous Mood--He Must Cease His Drives in the Park.

Trouble Among Tammanyites.

By Telegraph to The Sentinel.

NEW YORK, June 3.—The *Sun* states there is trouble brewing in Tammany hall. The sickness of John Kelly is being magnified by his enemies who state that his brain is weakening. Friends of Kelly deny this assertion. Last night an attempt was made to elect a sachem by anti-Kelly braves, but it was unsuccessful.

General Grant.

By Telegraph to The Sentinel.

NEW YORK, June 3.—Dr. Douglass remained all night at General Grant's house. He was called on during the night to attend to the general, who, while he slept nearly the usual time, passed a restless night. He was feeling not exceedingly bright when he awoke, but improved as the day progressed. "I don't believe that father will drive any more," said Colonel Grant this morning, "His experience lately, while driving, has not been good and I think we will not go out in the park any more."

Tuesday's Appointments.

By Telegraph to The Sentinel.

WASHINGTON, June 3.—The president appointed John H. Farley collector of internal revenue for the eighteenth district of Ohio, and Thomas C. Bronston collector for the eighth district of Kentucky.

The members of the cabinet will follow President Cleveland's example hereafter and will receive no visitors on Saturdays.

The president has appointed Wm. H. Welsh, of Maryland, deputy third auditor of the treasury, vice, A. M. Gangewer, of Ohio, resigned by request.

The Hessian Fly.

By Telegraph to The Sentinel.

TOPEKA, Kan., June 3.—There is now no doubt but that the Hessian fly is doing as much damage, if not more, than the cold weather of last winter, and the surplus wheat of Kansas will dwindle down to small proportions. In the great wheat valley of Kansas, the Gypsum in Saline county, where wheat never fails, entire fields are being plowed and millet sown. This is being repeated in all parts of the state.

Marine News.

By Telegraph to The Sentinel.

TOLEDO, O., June 3.—The first real activity in marine circles at this port this season was noticed yesterday in taking 200,000 bushels of wheat for shipment by lake and canal to New York at five and a half cents per bushel. The wheat is being loaded into ten canal vessels and the fleet will be on its way to Buffalo to-day.

A New Civil Service Wrinkle.

By Telegraph to The Sentinel.

WASHINGTON, June 3.—The *Post* has the following: "Joseph B. Fowler was dismissed last Saturday from the position of chief of the pension division of the third auditor's office, of the treasury department. Yesterday he was appointed a third class clerk in the same division, a position within the classifications of the civil service. This appointment raises another question for the civil service commission. It is said to be illegal, on the ground that Fowler's dismissal severed his connection with the government and that he could not be reappointed without going through the civil service examination.

Should the commission decide the appointment legal, the door will be opened wide for filling offices with as many democrats as any official could desire. The head of the bureau can now remove his chiefs of divisions and fill the positions by appointment, under the precedent made in the case of Fowler. These appointees can be reduced to clerks, the removal of the latter creating the desired vacancies. The new chiefs of the divisions can then be appointed and the same program followed until any number of clerical positions are filled. This would be even more legal than to absolutely dismiss a man and then appoint him to a clerkship without saying as much as "by your leave," to the civil service commission.

WASHINGTON, June 2.—The president appointed Charles H. Robinson, collector of customs, district of Wilmington, North Carolina. He commissioned postmasters: Marshall P. Maxod, Union City, Mich.; Norman E. Ives, Marion, Iowa. The following presidential postmasters were appointed: David G. Castburn, Fowler, Ind., vice George W. Mellish, resigned; Augustine C. Respess, Maysville, Ky., vice M. C. Hedekins, resigned; W. H. Gibbes, Columbia, S. C., vice C. M. Wilder, commission expired; Martin V. Meredith, East Saginaw, Mich., vice Wm. G. Gage, suspended, because he had been found guilty of fraudulently appropriating to his own use part of his allowance for office rent, by means of false vouchers and of sub-letting a portion of the premises without accounting for the rent received for the same.

John C. Byxbee was appointed collector of customs for the district of New Haven, Conn.

CABINET MEETING.

The cabinet meeting to-day was attended by all the members except the secretaries of the state and navy. The principal topic of discussion was in regard to the application of the laws concerning pleuro pneumonia and other laws relating to cattle herded in large public reservations in the northern part of Texas, popularly known as "No man's land." No conclusion was reached in regard to the case.

School Entertainment at Library Hall.

A large audience assembled last night in Library hall to witness the exhibition given by the boys of the Cathedral school. Considering that this was the first time they appeared in public they did very well, far better than was expected. Generally when boys appear for the first time they are somewhat timid and awkward and, perhaps some of those present expected such would be the case, but it was just the opposite for they seemed to feel at home and acted accordingly. This was owing to the thorough instruction they received from Brother Gabriel under whose direction the play was given. The boys did so well that it would be unfair to mention any one in particular. The singing was particularly fine. It is to be hoped they will appear soon again. Here is the program as it was rendered:

COLLIERY ON FIRE.

There Are 350 Men and Boys Confined in It.

By Cable to The Sentinel.

LONDON, June 3.—A dispatch from Durham says a fire broke out in the Philadelphia colliery, near that city, at noon to-day. Three hundred miners are in the pit, and a large force of men are at work trying to rescue them.

LONDON, June 3, 3 p. m.—A Durham dispatch just received states that the colliery on fire, is the property of the Earl of Durham, and is known as the Margaret pit. It is now feared that all the men and boys within the pit will be lost. Their number is placed at 350. The excitement in the neighborhood of the burning colliery increases momentarily. The relatives of the imperilled miners crowd around the mouth of the pit, weeping and wailing in a most heart-rending manner.

5 p. m.—A later dispatch says that all but twenty-two of the miners have been rescued, and those missing are supposed to have been killed. The fire was caused by an explosion of fire damp.

THE LATEST.

LONDON, June 3.—5 p. m.—Another dispatch from Durham states that the fire in the colliery was caused by an explosion and was followed by a rush of water in immense volumes into Sutton's seam. The miners in this seam, however, were taken out alive. Working parties are now laboring to stay the flood. The waters are rushing into the Mandlin seam, where a great number of miners are imprisoned, and whom the "reliefs" hope to release and rescue.

Secretary Bayard Welcomed.

By Telegraph to The Sentinel.

ST. LOUIS, June 3.—Hon. Thomas F. Bayard, secretary of state, accompanied by his private secretary, arrived this morning from Washington, en route to Columbia, Mo., to deliver the annual address before the students of the state university. He was met at East St. Louis by Senator Vest and a committee of citizens and escorted to the hotel where he was received by Mayor Francis and a committee of prominent citizens with a brief address of welcome.

BAYARD SPEAKS FOR PROSPERITY.

Secretary Bayard was escorted by the reception committee to the Merchants' exchange, where he made a brief address to a vast crowd, in the course of which he said he had always done all he could for the interests of the Mississippi valley. He added: "This is not my desire alone, and as one of the advisers of President Cleveland. I think I am justified in saying that the administration will make every endeavor to allay every remnant of sectional feeling in every particular. The administration is for the whole country and not for only part of it. Go on without fear. Embark in your enterprise, be at ease and everything, you may be sure, will be done to protect and advance the interests of every citizen in the United States." At the close Mr. Bayard was applauded heartily. He leaves to-night for Columbia, Mo.

The Striking Railroaders.

By Telegraph to The Sentinel.

CINCINNATI, June 3.—The strike on the Kentucky central railroad assumed the appearance of violence this morning. A freight train was made up in Covington and was starting out when a force of strikers appeared and cut the train loose and ordered the engineer to run the engine into the round house. The order was obeyed and the train did not start. The engineers are not yet in the strike, as they are awaiting the report of a committee sent to Richmond, Va.

OTTAWA, June 2.—The Canadian Pacific Railway company have notified the American railway lines that they will no longer carry passengers from the United States and the eastern provinces into Manitoba and the northwest at immigration rates. It is their intention to force traffic over their own line north of Lake Superior, which is now completed. The effect of this may be to arouse hostility on the part of American railways and the settlement of the western states may be advanced at the expense of the Canadian territories.

CINCINNATI, June 2.—Announcement was made to-day to the directors of the Cincinnati, New Orleans & Texas Pacific railway company that John C. Gault would assume the duties of general manager July 1, in place of John Scott, resigned. Mr. Gault is at present arbitrator of western trunk lines, with headquarters at Chicago.

WILLMINGTON, Del., June 2.—The Boston berry train from Norfolk, upward bound, collided with the Peninsula freight train below Middletown. Engineer William Ruston, of the freight train was instantly killed. Brakeman Hitch of the same train was severely hurt.

A Present for Grant.

By Telegraph to The Sentinel.

DAYTON, June 2.—At a mass meeting of the citizens of Dayton, a committee was appointed to draft resolutions and attend to other necessary duties attending the presentation of an adjustable invalid reclining chair to General Grant. The committee reported:

"We think the chair should be presented by some one or more gentlemen to be named for that purpose, to General Grant, or some member of his family at his residence in New York with the following letter signed on behalf of the citizens of Dayton by the committee to wit:

"The citizens of Dayton, Ohio, deeply sympathize, in common, with all the people of the United States with General Grant in his present affliction and desire to express by some suitable token their sentiments of affliction and respect towards the illustrious sufferer and beg him to accept the present of this chair in the hope that it will alleviate, in some degree, his physical discomfort and cause him some satisfaction by the assurance of the lively interest felt in his personal welfare by his countrymen, to whom, though he may be personally a stranger, he is yet endeared by the invaluable services he has rendered to the republic."

George F. Child was appointed to accompany the chair.

Roasted Alive.

By Cable to The Sentinel.

VIENNA, June 28. A village in northern Hungary, containing 400 houses was recently destroyed by an incendiary fire and 1,000 persons were rendered destitute. The enraged populace discovered the culprit and roasted him alive over a bonfire.

LOCAL LINES.

G. L. Potter, of the Pittsburg motive power office, has gone to Chicago on business.

Chief Engineer Bob Harrison, of the Pittsburg company's fire department, is making his weekly examination of hose and engines. Bob makes a first-class chief.

Jane Rossman wants a divorce from August Rossman who abused her and neglected to provide for her four children. Mrs. Rossman does house cleaning for a living.

The veteran Pittsburg engineer, David Johns, is confined to his bed at Plymouth with a severe illness. The attending physicians have little hopes of his recovery. "Davy," as he is familiarly called, has run a locomotive for thirty years, ten or twelve of which he has run the Plymouth accommodation out of this city.

People complain that the cow ordinance is not enforced. They forget that immediately after the adjournment of the last council meeting the poundmaster, Cook, resigned because his salary was made too small. A new poundmaster will be elected at the next meeting of the council. Then the law will be enforced to the letter.

An Honored Guest.

Vice-President Thomas A. Hendricks arrived in the city to-day and attended the Episcopal convention this afternoon. This evening he will receive his friends at the Aveline house, and at 9 o'clock will attend Bishop Knickerbacker's reception at the Randall mansion.

Bill Bloomhuff Lives.

The report of Engineer Bill Bloomhuff's death was circulated yesterday by his brother, Nate Bloomhuff, who has been drinking hard. Mr. Bloomhuff's relatives have received no information of his death and we are inclined to discredit Nate's story.

The Great Derby.

By Cable to The Sentinel.

LONDON, June 3.—The greatest event on the English sporting calendar, the race for the Derby stakes, was run to-day at Epsom Springs. The weather was brilliant and the attendance enormous. Mr. Thomas M. Waller, consul general of the United States at London, was among the spectators. He was accompanied by a large party of Americans.

The winner of the race was Lord Hasting's bay colt, Melton. He was the favorite in the betting, and was ridden by the famous jockey, Fred Archer. Capt. C. Bowling's bay colt, Paradox, secured second place, and Mr. Childwick's bay colt, Royal Hampton, third place. Paradox was second choice in the betting, and was ridden by West. Gilet rode Royal Hampton.

The prince and princess of Wales and all their sons and daughters went to Epsom by special train to witness the races. Senator Payne, of Ohio, was among these present.

During the storm last night, voices were heard on the lake as of men on a boat or raft floating helplessly. It was thought a vessel may have been struck by lightning and the men took to the boat for safety.

By Telegraph to The Sentinel.

EMPORIA, Ks., June 2.—There has been much excitement here to-day over the mysterious disappearance of Miss Eva Bailey, a young lady highly connected and greatly esteemed in the community. She attended a party last night, and after returning home went out of the house for a moment, and has not been seen since, though a thorough search has been made. No motive is known for voluntary absence, except her failure to graduate in the school she attended.

The Apaches.

By Telegraph to The Sentinel.

BOWIE, A. T., June 2. The troops following the renegade Indians' trail with scouts, from Apache, on the headwaters of the Gild river, are reported as having captured the main portion of the band and are now en route for Apache with the prisoners. It is supposed that only about fifty, all told, got away to Mexico. A small band is supposed to be in the mountains north of here, but its number is not known. The campaign is virtually ended this side of the line.

A recent invention for the use of electricians is square wire, which is claimed to be, not only mechanically, but electrically, better than round wire.

Thaddeus Stevens and James Buchanan are notable names in the history of America. Both were citizens of Lancaster, Pa., and here also it was that Mishler's Herb Bitters was first offered to the public as an infallible cure for indigestion, constipation, cholera morbus, kidney and liver complaints. Its fame is not confined to the town where it gained its early reputation, however, for the whole civilized world is now acquainted with its virtues.

Bishop William Taylor calls Liberia "the garden spot of West Africa."

An Off Year.

This is going to be an off year. No political booms for "Plumed Knights" or "Defoges" will help keep up health and strength of vast multitudes whose faith is pinned on the glowing party promises of election year. Multitudes of such will need a reliable tonic up the system, a purifier to work off the bad blood, and a sure remedy for lame backs, rheumatism, biliousness, etc. Such a remedy is Kidney-Wort. It has long stood at the head of the list of kidney remedies, and it receives the highest praise for all that use it.

New York is building up rapidly on the west of Central Park.

Absolutely the best Porous Plaster ever made. The Hop Plaster is composed of fresh hops, balsams and gums. Weak back, side ache, sore chest and all pains are speedily cured by its use. Apply one. Only 25 cts. at any drug store.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

CHOLERA is rapidly moving westward and will soon appear in this country. In order to prevent disastrous effects from its ravages every preventive should be employed, and the system should be in perfect condition. At this season of the year the system is in a weak state and easily susceptible to dangerous disease. Pain in the back, weariness, lassitude, headache, dyspepsia, indigestion, kidney and liver complaints are but the result of neglect. During the last visitation of cholera to this country no medicine was found equal to Mishler's Herb Bitters, both as a preventive and cure, and it has been equally successful in all the diseases above mentioned. It renews and invigorates the blood, restoring to health and strength, and thus shielding the system from disease.

Ask your druggist for Mishler Herb Bitters. If he does not keep it do not take anything else but send a postal card to Mishler Herb Bitters Co., 408 Commerce Street, Philadelphia.

Metal Poison.

I am a coppersmith by trade, and during a series of years my arms during bare when at work have absorbed a wonderful amount of metal poison. Having a scrofulous tendency from my youth, the small particles of copper and brass would get into the sores, and by this process the poison was conveyed into my blood till my whole system became infected. I was treated with the old remedies of mercury and iodide potassium. Salivation followed, my teeth are all loose, in my head my digestive organs deranged, and I have been helpless in bed for over a year with mercurial rheumatism. My joints were all swollen and I lost the use of my arms and legs, and became helpless as an infant.

My suffering became so intense that it was impossible for me to rest. The doctors advised me to go to the city hospital for treatment. This I could not bear. A friend, who has proved a friend indeed, urged me to try Swift's Specific, which I did, and in due time. Others discouraged me, but I secured a few bottles, and have now taken two dozen bottles. The first effect of the medicine was to bring the poison to the surface, and I broke out all over in running sores. They soon disappeared, and my skin cleared off. My knees, which had become so inactive as to delay, have resumed their usual size, and are supple as a young man's. My arms and hands are all right again, and can use them without pain. The entire disease has left all parts of the body save two ulcers on my wrists, which are healing rapidly. I am weak from long confinement, but I have the use of all my limbs. This medicine is bringing me out of the greatest trial of my life, and I cannot find any words sufficient to express my appreciation of its virtues, and the gratitude I feel that I ever heard of it. Peter E. Love,

Malarial Poison.

The drouth in the southwest Georgia last spring dried up the wells, and we were compelled to use water from creek on the plantation. The result was that all were troubled with chills and fever. I started with me several bottles of Swift's Specific, and as long as I took it I had perfect health. As soon as I ceased taking it, I, like the rest, was afflicted with chills. When I resumed its use, I was all right again. We have used it in our family as an antidote for malaria poison for two or three years, and have never known it to fail in a single instance. W. C. Fincher.

PRIVATE letters from Lady Mandeville to friends in New York give an amusing account of the pangs and fears endured by herself in common with other ladies of the Princess of Wales' suit during the royal progress through Ireland. The Viscountess frankly admits that she was frightened almost to death, and suffered untold misery in anticipation of a Fenian shot or an unexpected visitation of dynamite. "The Prince and Princess were full of pluck," she writes, for they had a great end in view, but as for our insignificant selves, we could neither eat nor sleep, and scarcely ever trusted ourselves outside the doors unless compelled to do so. And as for the railway journeys, and open carriage expeditions, they were too dreadful for anything."

The Bride and the Wedding Cake.

A young lady about to be married wanted to startle the guests with an exhibition of her ability in house keeping and cookery. So she made the wedding cake. The day after the wedding, most of those who ate the cake were sick. Thousands go from year to year eating such indigestible things, and are consequently ill with dyspepsia nearly all the time. Mrs. Nancy Collier, Tuscaloosa, Ala., says: "My niece has been relieved of dyspepsia and lung troubles by using Brown's Iron Bitters."

Rheumatism, Gout and Neuralgia

It is scientifically settled that rheumatism, gout and neuralgia cannot be cured by rubbing with oils, ointments, liniments, lotions, etc.; for the reason that these diseases are caused by uric acid in the blood. ECZEMA

And Every Species of Itching and Burning Diseases Positively Cured.

ECZEMA, or salt Rheum, with its agonizing itching and burning, instantly relieved by a warm bath with Cuticura Soap, and a single application of Cuticura, the great skin cure. This repeated daily, with two or three doses of Cuticura Resolvent, the new blood purifier, to keep the blood cool, the perspiration pure and unirritating, the bowels open, the liver and kidneys active, will speedily cure eczema, tetter, ringworm, psoriasis, lichen pruritus, scald head, dandruff, and every species of itching, scaly, and pimply humors of the scalp and skin, when the best physicians and all known remedies fail.

Will M. Donald, 254 Dearborn St., Chicago, gratefully acknowledges a cure of eczema or salt rheum on head, neck, face, arms, and legs for seventeen years; not able to walk except on hands and knees for one year; not able to help himself for eight years; tried hundreds of remedies; doctors pronounced his case hopeless; permanently cured by Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap (the great skin cures) externally.

Chas. Houghton, Esq., lawyer, 28 state St., Boston, reports a case of eczema under his observation for ten years, which covered the patients body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the Cuticura Remedies, leaving a clean and healthy skin.

F. H. Drake, Esq., Detroit, Mich., suffered untold torture from eczema, which appeared on his hands, head and face, and nearly destroyed his eyes. After the most careful doctoring and a consultation of physicians failed to relieve him, he used the Cuticura Remedies, and was cured, and has remained so to date.

Mr. John Thiel, Wilkesbarre, Pa., writes: "I have suffered from salt rheum for over eight years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of cuticura and four bottles of Resolvent have entirely cured me of this dreadful disease."

Fort Wayne Paint and Color Works.

No. 12 West Columbia Street Fort Wayne, Indiana.

To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinder of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 33⅓ per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1876, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well known to the public, and his long practical experience as painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the can says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get a one of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your house.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

The Telephone Law.

It is reported that the Telephone company may attempt to evade the provisions of the law reducing rates to $3 per month, by charging additional sums for exchange service and for use of the wires. The Third Ward Primary.

Care for the Children

Children feel the debility of the changing seasons, even more than adults, and they become cross, peevish, and uncontrollable. The blood should be cleansed and the system invigorated by the use of Hood's Sarsaparilla.

"Last Spring my two children were vaccinated. Soon after, they broke all out with running sores, so dreadful I thought I should lose them. Hood's Sarsaparilla cured them completely; and they have been healthy ever since. I do feel that Hood's Sarsaparilla saved my children to me." MRS. C. L. THOMPSON, West Warren, Mass.

Purify the Blood

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the *combination* of remedial agents; 2d, the *proportion*; 3d, the *process* of securing the active medicinal qualities. The result is a medicine of unusual strength, effecting cures hitherto unknown. Send for book containing additional evidence.

"Hood's Sarsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. L. THOMPSON, Register of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. BARRINGTON, 130 Bank Street, New York City.
